

MANAGED TRAINING SERVICES

# Customized Support for Task-based Training

# Managed Training Services (MTS)

**Providing efficiency and peace of mind, MTS allows you to expand the size of your training team and get more done.**

Augment your administrative or training staff and support your training department with one of our Industry-informed training consultants who can develop materials, design or enhance your training processes, create individual development plans, and maintain audit-ready training records.

## Key MTS Project Implementation Phases:

### Services Launch

Including initial project/scope planning and meetings with leadership sponsors and participants to ensure everyone is on the same page and understands the plan for the year.

### Training Support Services

We provide ongoing administrative support and training program consulting to assist with managing and maintaining the initial and continuing training programs.

### Optimization Coaching

A bank of coaching hours to support new Vision or QTD users in building skills and maximizing the applications.

## Training Software Optimization

**VISION**

For customers who use the Vision Training Suite or Quality Training Database our Managed Training Services also provide training and optimization coaching on how to organize your training data most effectively for compliance purposes and to get the most from the software.
